To My Many Friends and Customers

"Glad" Greetings

It is with great pleasure that I send you my 1925 Catalogue, and express to you my sincerest thanks for your generous patronage in the past, with the hopes of its continuance in the future. Without your patronage I could not succeed with this work, or be able to add new varieties each year to my collection. It is my ambition to grow and offer only the very choicest kinds. So far I have not been able to secure **all the best**, so I have to content myself with growing **most of the best**. How well I have succeeded thus far I am leaving to your own judgment, after you have looked through my list.

I have gone through a most trying year and have met with very serious difficulties as most of my nearby friends know. Besides, it has been necessary at times to work day and night looking after and caring for my crop and getting my fall orders out nearly on time.

My labor has been well rewarded not only by a lot of additional orders, but more so by the many nice letters you have sent me, all expressing delight and satisfaction with the bulbs I sent out and the great pleasure derived from the Glads purchased from me in past seasons, as well as the many sincere wishes for my future success, and I thank you most heartily, one and all. It shall always be my sole aim in the future as well as in the past to continually add new and more beautiful kinds as far as my means will permit to be able to offer to my friends their choice of a collection second to none. Soliciting your valued patronage, I wish to say that I will always endeavor to merit your confidence and do all humanly possible to deserve your favors.

With best wishes to you all for a Happy and Prosperous New Year, and a good "Glad" year,

Yours sincerely,

A. J. ANDERSON.

The Blooming Quality of My Bulbs

The blooming quality of my bulbs can be vouched for best by the thousands of people who have seen my exhibits at the Minnesota State Fair the past two seasons, where my collection has been awarded **first prize** in keen competition each year. Last summer was the driest season here for a great many years, if not the driest ever experienced, and with no facilities for watering, not even any special cultivation, and with as able a judge as Mrs. A. H. Austin (Supervising Judge for the American Gladiolus Society), my collection was awarded first prize, as well as my collection of Primulinus. First for sixes and first for single spikes; 12 first prizes in all, including sweepstakes, as the record of the Fair association will show, and in competition with growers who had water supply and facilities for watering. The Kunderd and Diener varieties, as well as the production of other famous originators in the United States and Europe, were well represented. The above stated facts are absolute proof that I grow the **real**, and no cheap imitations of the famous Kunderd and Diener varieties, regardless of how our prices compare.

Glad Fans Are Always Welcome Visitors

Our new place is located 12 miles north of St. Paul, Minn., on highway No. 1, and on the newly paved Bald Eagle Avenue, between White Bear Lake and Bald Eagle Lake, just before you cross the Soo Line railroad, and is convenient to reach by automobile or by Bald Eagle Lake Auto Bus from St. Paul. The main travel from the Twin Cities to the lakes and Duluth passes our place. We will always be glad to have you call when convenient to do so, and at blooming time especially, as we hope to always have something new and of interest to the real flower lover. Our soil and climate is ideal for the production of bulbs of best quality, and we hope to make this not only our permanent home, but also the **Home of the World's Finest Glads.**

COME AND SEE US.

Terms of Sale

The following offers are made subject to prior sale or the destruction of my stock by any agency over which I have no control. If I should be unable to fill all or any part of your order, I will promptly return your money. I can do no more, as I sell my own grown Bulbs only. All Bulbs listed in this catalogue are of blooming size and will range from 1¼ up to 2 inches and over, unless otherwise stated. When sold out of large sizes in a variety, and it is necessary to fill an order with smaller Bulbs, extras will be included to make up good value for the money.

Substitute: Under no circumstances will I substitute for a variety sold out, but will promptly return your money for same, unless, with your permission, a higher priced or better kind can be used.

Order Early: Many varieties are in great demand and will be sold out very quickly. Unless you send in your order early, it will be well to make out a list of second choice. It will save extra correspondence.

My prices quoted in this catalogue are so low, considering the quality of Bulbs I send out, that I cannot afford to make inducements in the way of big cash discounts or offer high-priced Bulbs or Bulblets as premiums, but will give good, honest value for your money, **and then some.** Extras will be included in proportion to the size of the order.

I guarantee to please. If you are not perfectly satisfied with the Bulbs I send you, you may return the whole lot at once and your money will be promptly refunded.

Cash with order or 25% of amount will hold your order till March 15th, balance in advance of shipment.

No order from unknown customers without a cash deposit will be accepted. No orders will be shipped prior to March 1st, except to customers in the southern latitudes.

Free Delivery. All orders from this catalogue for \$1.00 or more will be sent by parcel post or express **prepaid** when remittance has been received in full in advance of shipping. Orders for \$3.00 or more will be insured to guarantee safe delivery to any part of the United States or Canada.

No orders can be filled for less than \$1.00

Remittance should be made by post money order, express money order or bank draft. On personal checks outside the Twin Cities please add 10 cents for exchange.

Currency sent in letters at sender's risk. It may not reach me.

Every Bulb sent out is healthy and true to name, but should an error occur, I will gladly replace any bulb that proves otherwise, or refund amount received for same.

The Deiner Originations

It is now a well known fact that Mr. Richard Diener has originated some of the most beautiful "Glads" in the world, that are in a class by themselves. I am listing them separately. The Deiner varieties are as follows:

***ANNA EBERIUS**—Deep Rhodamine purple, shading into very deep bordeaux center. This variety has created a sensation everywhere with growers and amateurs alike.

Each 20c; dozen \$2.00

***DIENER'S AMERICAN BEAUTY**—Brilliant American Beauty color. Throat creamy yellow striped with ruby. One spike opening a large number of flowers at one time forms an immense bouquet. Flowers very large.

Each 25c; dozen \$2.50

GERALDINE FARRAR—Pale lavender-violet with deep violet spot on the lip. Unlike other blue varieties, the growth is very strong and vigorous. It has four side spikes on the main spike and brings two extra spikes from the bottom, out of the same eye, which is extremely different from any varieties ever seen. This variety has made a big impression with all visitors to this place. AWARDED FIRST PRIZE for the finest blue variety at the convention of the American Gladiolus Society, held at Rochester, New York, August 15th and 16th, 1923. Stock limited due to the great demand for this variety.

Each \$10.00

HENRY FORD—Very dark rhodamine purple, shading into deeper tones near the center. Color very clear like Anna Eberius, but much larger and clearer. Note: All the "Glads" listed in this catalogue are **named** varieties, and registered under their proper name, and descriptions of color and types, by the originators or disseminators. I give the same description in full or part as I feel justified. It seems impossible to fully describe the actual beauty of many varieties. But the main colorings will be found accurate and true to name.

Important: *A star before the name indicates that I can supply that variety in large quantity also in small sizes and bulblets at very reasonable prices. If interested in larger quantities send me a card for my **Wholesale List**.

SMALL BULBS—Small bulbs listed in this catalog will run from ½ inch in diameter and larger and will bloom the first season under normal conditions, and make a large bulb for next year's planting—will not bloom as early as a large bulb of same variety.

Unless otherwise stated, bulbs priced in this catalogue will be 1¼ inch or more in diameter, and are full blooming size.

The Gladiolus Bulbs shipped on the 10th came yesterday, the 18th, in good shape. Thanks for the liberal way in which you filled my order, also for the six Jewells gratis. I am very much interested in the Primulinus type, and want to work up a good stock for cutting. Do not care so much for the large kinds. Trusting I may be able to send you future orders, I am,

Sir:

I have just unpacked your order No. ———, and feel that I owe it to you to acknowledge the truly remarkable bulbs you sent me, also to thank you for the very good value in "extras" for so small an order.

In looking over my list I find I have purchased bulbs from seven different concerns. One hundred and fifty different varieties, and not a single bulb came up to several of those you sent me. If these bulbs fulfill their promise when blooming time comes you will surely hear from me again, as I hope to own every worthwhile Gladiolus that I can afford to buy. I trust you will let me have your next season's catalogue, especially if you add any new varieties to your list.

Respectfully,

E. R.

Dear Sir:

Received the bulbs from you yesterday. They are fine looking bulbs and came through in fine shape. I thank you for the Giant Myrtle you sent me extra. I am pleased that you sent me two small bulbs in place of one large in some varieties. I prefer a No. 3 or 4 any time to an extra large one. I will have to have a "Sulphur Frills" next season, and some of the other choice ones.

Respectfully yours,

Dear Sir:

Your letter and bulbs received today, and was particularly pleased with your letter and the very extra fine bulbs. The average buyer wants large bulbs but, of course, when I ordered young bulbs it was with the thought of keeping up my stock as well as for an increase. I am highly pleased and grateful to you for the consideration given my order.

Please let me have your Price List soon, as I want more bulbs from you and I want to say to you, Mr. Anderson, that your stock is wonderful, and I am highly pleased and have no hesitancy to order large or small amounts for I know it will be as represented. Again thanking you,

Dear Sir:

Bulbs received O. K., and believe me, they are **some bulbs**. Wish you would just slip me the secret of growing them so large and fat. I think those first size ——— beat anything I ever saw. Given half a chance, such bulbs will surely throw some wonderful flowers. Thank you for your generous treatment both as to count and size. I certainly appreciate it. With the compliments of the season and best wishes for your continued success.
